

Folkloric Blocks

finished quilt measures 78" x 87"

designed by Sue Spargo & Wendy Morris, instructions by Ramona Rose

Notes: use 1/4" seams throughout. Instructions are given for each block to be made independently, but the strips leftover from trimming each block can also be used instead of cutting new strips. Each block will start with a fussy cut 7-1/4" square flower block from the panel - there will be 3 extra panel blocks to choose from. As you sew borders around each block, press and trim to the noted size. Do not center the flower when trimming, only make sure that it is level (i.e. not slanted on a diagonal, but off-centered). As each border is added around the center of the block, trim to the dimensions given, allowing the block to be off center to add interest.

Fussy-cut (9) 7-1/4" square flowers from the panel squares (**AUC-13418-238**). Each square will be the center of a block, with several rounds of borders.

Quilt Assembly

Assemble the quilt top by sewing rows 4/5, 6/7, 8/9 together into a column, then attaching 1/2/3 to the left side of blocks 4-9.

Square up the quilt top, and measure the width and height (should measure approximately 62-3/4" x 70-3/4").

Inner Border: from 13413-238, fussy cut (8) 2-1/4" strips of houses print to match the height of your quilt center (approximately 70-3/4"), and sew on either side, with house bottoms resting on the center. Cut the top and bottom border strips the same way (approximately 66-1/4" x 2-1/4").

Outer Border: from 13416-12, cut (8) 6-1/2" x WOF strips, sew together end to end, and cut into 2 pieces 74-1/4" long (or the height of your quilt top) and 2 pieces 78-1/4" long (or the width of your quilt top, after adding side borders). Sew the 74-1/4" pieces to the quilt sides, then the 78-1/4" pieces to the top and bottom of the quilt.

Binding: Cut (9) strips of 13415-108 (fuchsia chevron) at 2-1/2" x WOF and prep using your favorite method.
