Cut 35 – 1.5” x 7.5” rectangles (N) from ANM-10608-186

Planning hint: I think it would help to lay out these rectangles in piles with letters labeling each pile to help keep them straight.

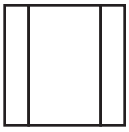
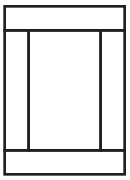
Piecing the blocks and the rows

Sew 2 H rectangles to the sides of each A rectangle as shown:



Then sew 2 H rectangles to the tops and bottoms of each of these units, thus surrounding each A rectangle with the H rectangles



Repeat the same piecing method using H rectangles around the E rectangles, I rectangles around the C rectangles and the D rectangles. Then repeat again with the J rectangles around the B rectangles and the F rectangles.

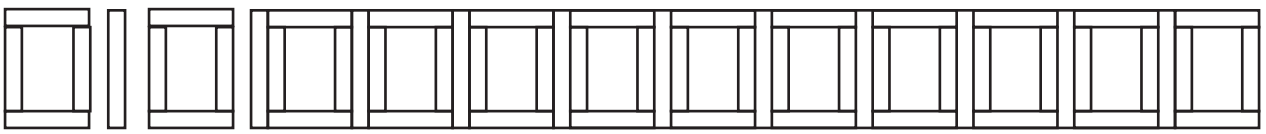
There should be 10 J rectangles left. Sew these to the 10 G rectangles as shown:

Then sew the K rectangles to the tops and bottoms of these rectangles as shown, creating the 10 side links.

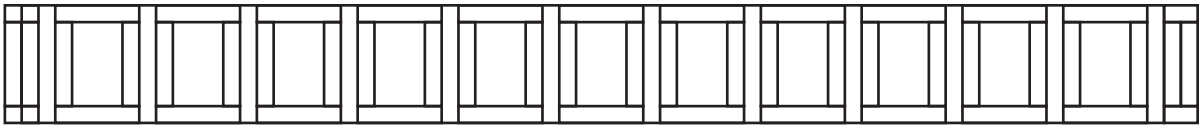
Putting it all together

Now put these blocks together in rows spaced by the rectangles L, M, and N referring to the diagram and the photo for color placement of the blocks. There are two rows, Row A and Row B.

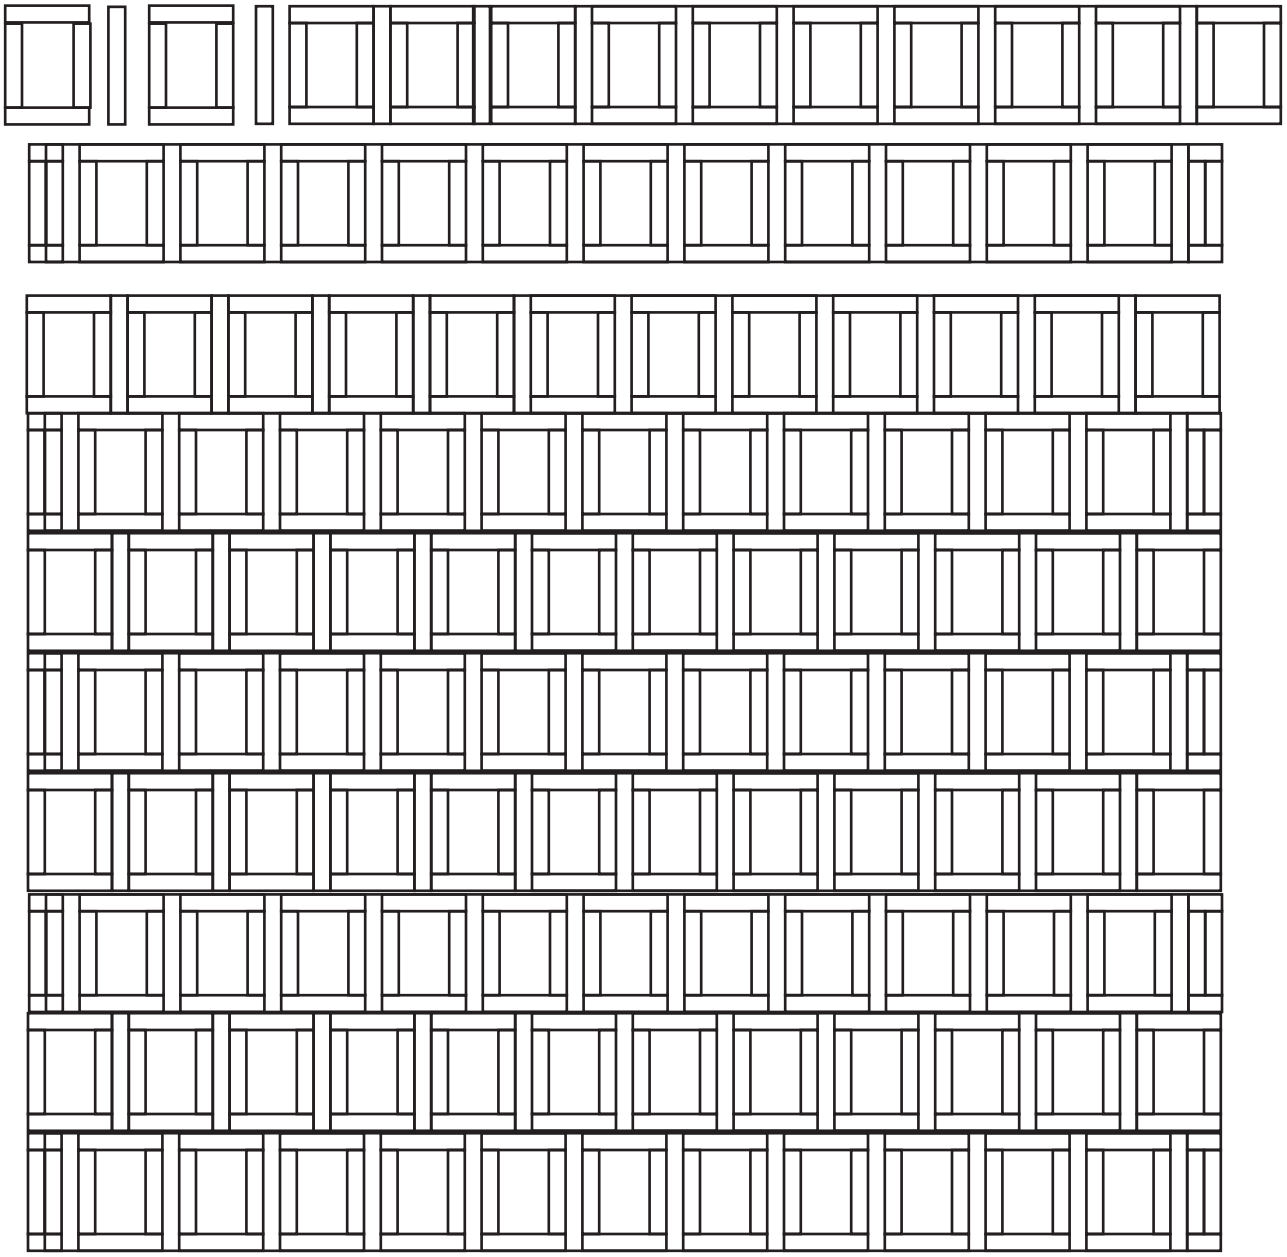
Row A:



Row B:



Make 5 of each row, then sew them together as seen in diagram and photo.



Quilt the top and then bind it with your favorite method using ANM10609-193

Don’t forget to include a label!!

And if you would like to add a picture of your project to the Blue Nickel Studios flickr page, I would be most delighted.
