Fabric and Supplies Needed

Color	Fabric	Name/SKU	Yardage	Color	Fabric	Name/SKU	Yardage
	A	SRKM-14844-195 BRIGHT	2/3 yard		C	O029-1242 NATURAL	1-5/8 yards
	B	SRKM-14848-195 BRIGHT	1 yard	You Will Also Need: One 12"-16" Invisible Zipper Foam, bean bag stuffing or fabric scraps			

Notes Before You Begin

- Please read through all of the instructions before beginning.
- Width of fabric (WOF) is equal to at least 42" wide.
- Press all seam allowances open after each seam is sewn, unless otherwise noted.
- Remember to measure twice and cut once!

Cutting Instructions

Fabric A

- Fussy cut two circles 20-1/2" in diameter (Center each on a motif).

Fabric B

- Cut two strips 18" x WOF.

Fabric C

- Cut two circles 20-1/2" in diameter.
- Cut two strips 18" x WOF.

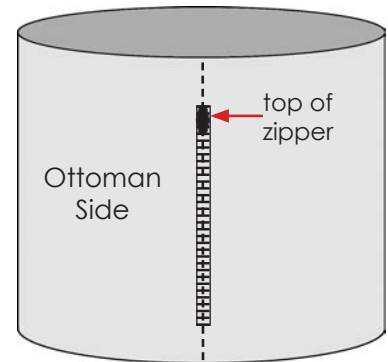

Assembly Instructions

1. Sew the two Fabric B strips short ends together and then subcut a strip 18" x 64".
2. Repeat with Fabric C to make a second 18" x 64" strip.
3. Lay the Fabric A circles right sides up on the Fabric C circles and machine or spray baste together to make the Ottoman Top and Ottoman Bottom (*You could also layer batting in the middle and quilt them.*).
4. Lay the Fabric B strip right side up on the Fabric C strip and machine or spray baste together to make the Ottoman Side.

5. **Insert the Zipper:** Sew the Invisible Zipper into the two short ends of the Ottoman Side, to make a tube with a circumference of 63" (follow zipper package sewing instructions, use a 1/2" seam allowance).

Close the zipper all the way, and then sew the top of the zipper so it won't separate (you want the zipper to open, but the tube to stay closed).

Sew the rest of the seam closed above and below the zipper, if necessary (this will depend on the length of your zipper).

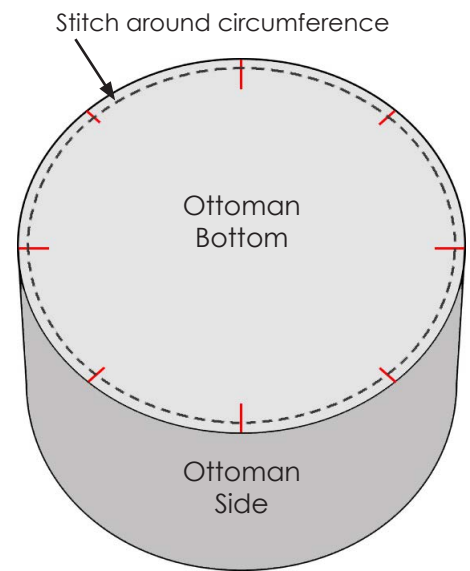

6. **Assemble the Ottoman:** Mark the bottom edge of the Side Panel to divide it into quarters (Mark the 1/8 points for even more guidance).

Fold the Ottoman Bottom and mark to divide into quarters.

With right sides together, match up the marks of the Bottom to the Side, and BASTE the pieces together with a 3/8" seam allowance, easing the Bottom piece as needed. If you need to adjust your seam allowance, do so, and then sew with a regular stitch length.

Sew around again, inside the seam allowance, for durability.

Open the Zipper at least 5", then repeat to attach the Ottoman Top to the Side.

7. Turn the Ottoman right side out through the open zipper, and stuff with foam, bean bag filling or old fabric scraps.

Your Ottoman is complete. Put your feet up and relax!
