## Double Diamond Reversible Table Runner & Table Mats

finished table runner measures 41" x 14-1/2", each finished table mat measures 17" diameter

**Pattern Level:** Intermediate > the user possesses mastery of basic sewing skills such as rotary cutting and accurate seams, a template will be used for a portion of this project  
all seam allowances are 1/4" unless otherwise stated.

### Fabric Requirements

One (40) piece roll-up, including the following number of strips of each fabric:

Fabric A: 3 strips    Fabric B: 3 strips    Fabric C: 3 strips    Fabric D: 3 strips    Fabric E: 3 strips\*

Fabric F: 3 strips    Fabric G: 3 strips    Fabric H: 3 strips    Fabric I: 3 strips    Fabric J: 3 strips

Fabric K: 3 strips    Fabric L: 3 strips\*    Fabric M: 3 strips\*

\*plus one fat quarter each for table mat backings

*Fabrics A should be set aside to use for runner binding & Fabric G strips should be set aside to use for placemat binding once your runner and mats are complete.*

### Assembly Instructions

Step 1) Using one strip each of Fabrics H / E / J / B, sew them along the length of the strip, in order as listed above - refer to the image for fabric placement. Repeat to make two HEJB strip sets. Press each seam towards the darker color, making sure all seams are pressed in the same direction.

Step 2) Repeat step one with Fabrics I / C / O / A to make two ICOA strip sets, following the order of fabrics as listed.

Step 3) Repeat step one with Fabrics F / N / L / D to make two FNLD strip set.

Step 4) Repeat step one with Fabrics K / M / L / G to make two KMLG strip set.

\*You should have eight total strip sets once you've completed Step 4.

Step 5) Using the triangle template provided, cut 7 triangles from each strip set.

\*You should yield 56 triangles. You will need 54 triangles to complete one reversible table runner and three small table mats.

Step 6) Using the image as a guide, piece together two sets each consisting of five ICOA triangles, two HEJB triangles, and two FNLD triangles.

Step 7) Sew the two strips from Step 6 together to make the first side of your table runner.

Step 8) Repeat step six using six FNLD triangles, four KMLG triangles, four HEJB triangles, and two ICOA triangles. This will be the second side of your table runner.

Step 9) Sew the two strips from Step 8 together to make the second side of your table runner.

Step 10) To make the table mats, you will first sew together sets of three triangles, then sew two sets together to make one hexagon table mat. Using your leftover triangles, pick and chose your favorite combination of six to make each mat. Play with the placement and discover interesting combinations and looks!

Step 11) Using the three Fabric P strips, sew them together end to end and prep the long strip to be at least 96" of double fold binding.

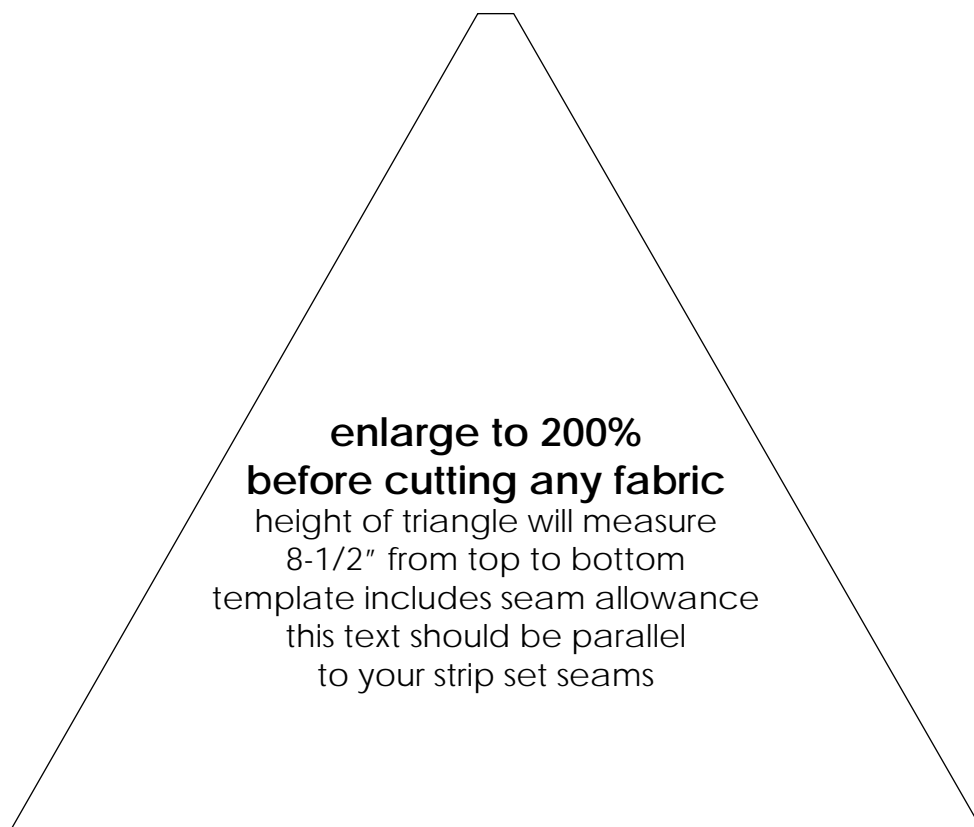

Step 12) Using the Fabric R, S, T, or U strips, sew together end to end and prep as double fold binding. Cut the strip into three lengths of at least 53" to use as binding for the placemats.

---

Step 13) Layer the first side of your table runner over a piece of batting 44" x 16" and sew a 1/8" seam all around the edge. Trim the batting 1/4" from the fabric edge. Center the first side and batting over the second side of your runner, then baste and quilt. Bind using Fabric P.

---

Step 14) Layer one of each table mat over a layer of batting and a fat quarter for backing. Quilt as desired. Bind using Fabric R, S, T or U.
