## Construct the A Blocks

*Diagram 1*

**Step 1:** Construct ninety-six A blocks (half-square triangles) out of forty-eight A1 pieces from and forty-eight D3 pieces following Diagram 1. Draw a line diagonally through the center of each of the A1 piece squares. Then, with a ruler measure 1/4" from the center line and draw a line on either side of the center line for a total of three drawn lines on each A1 piece.

Place one A1 piece on top of an D3 piece, right sides together and with the drawn lines facing up, and pin in place. Stitch along the two outer drawn lines. Repeat this step with the remaining A1 and D3 pieces. Cut each pieced square along the center line with a rotary cutter and press each seam to the side, towards the darker fabric to finish the ninety-six A blocks. Square up each A block so that it measures 4 1/2" square.
