Construct the Block

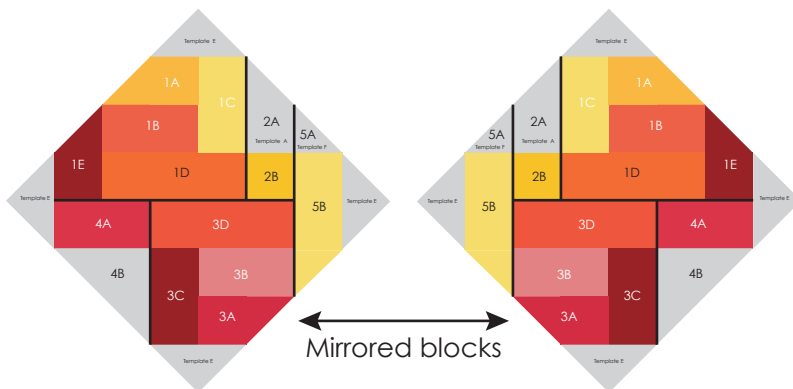

Separate cut fabrics in piles for Warm, Cool and Black. Refer to the Quilt Assembly Diagram, if needed.

Gather pieces to make one Warm Block. It is recommended that you make one complete block to become familiar with the construction, before moving on to assembly line sew the remaining blocks for that color grouping.

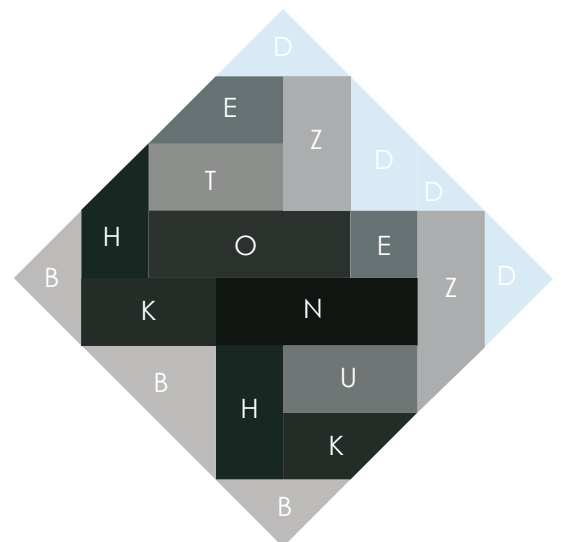

Referring to the block diagram, piece the block in sections, beginning with Section 1. Sew 1A to 1B, then 1AB to 1C and so on. Complete each numbered section, then sew Section 1 to Section 2, Section 3 to Section 4, then sew Section 1/2 to Section 3/4. Sew Section 5 on to the block. Finally, sew the Template E triangles to the four corners. Press all seams to one side as you sew.

Make eight Warm Blocks (four will be a mirror image).

Repeat this process to make eight Cool Blocks.

For the Black Blocks, note that Fabrics B and D are both used in the block for the grays- one along the top of the block, the other along the bottom. Carefully lay out these blocks before sewing any pieces together to confirm that you have the fabrics in the correct position.

Assemble the Quilt

Quilt Assembly Diagram

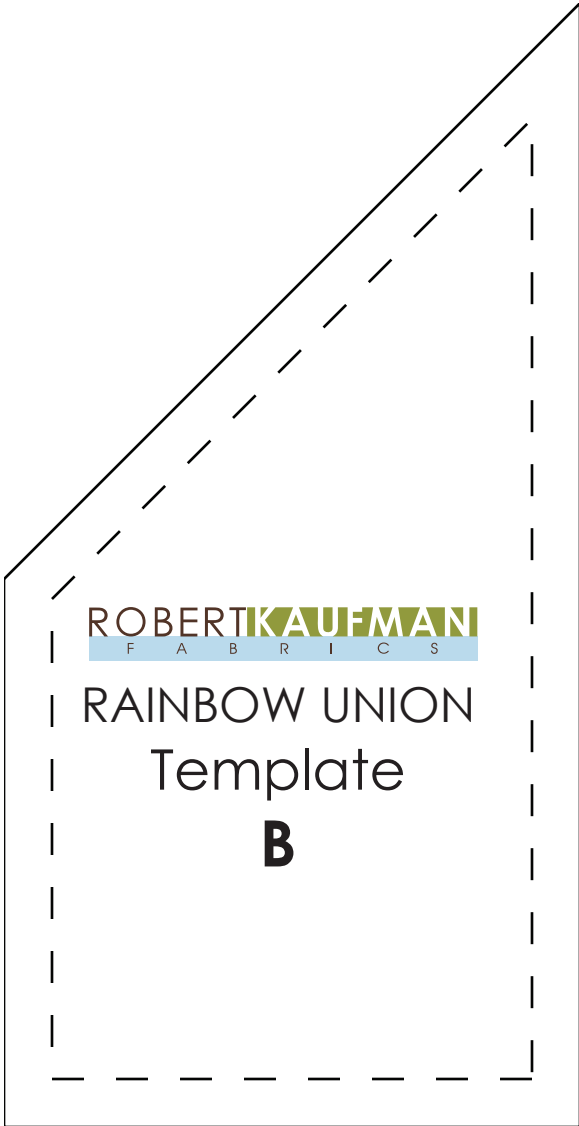

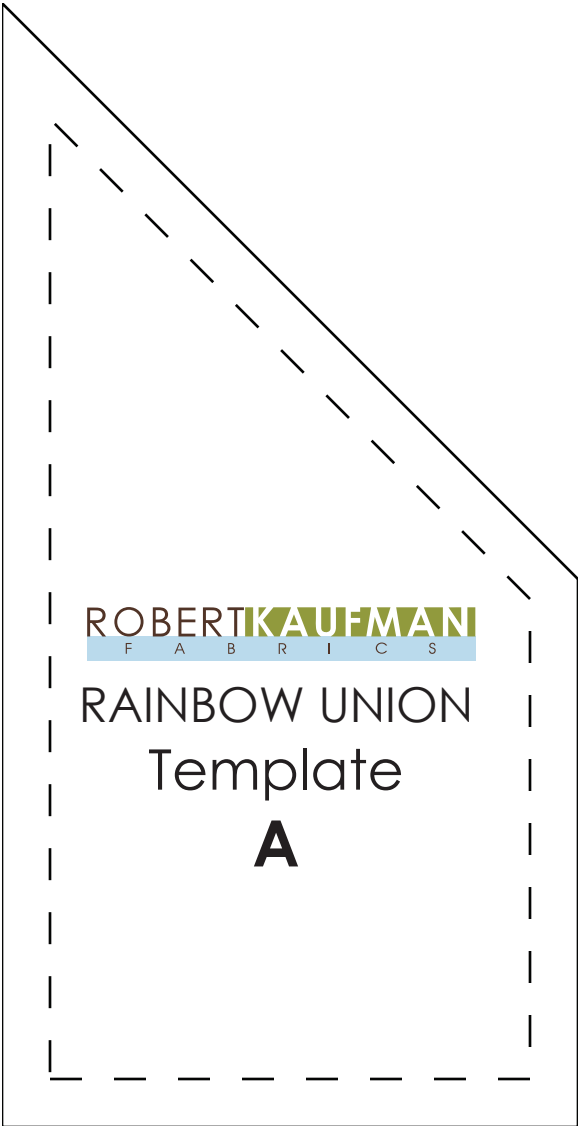

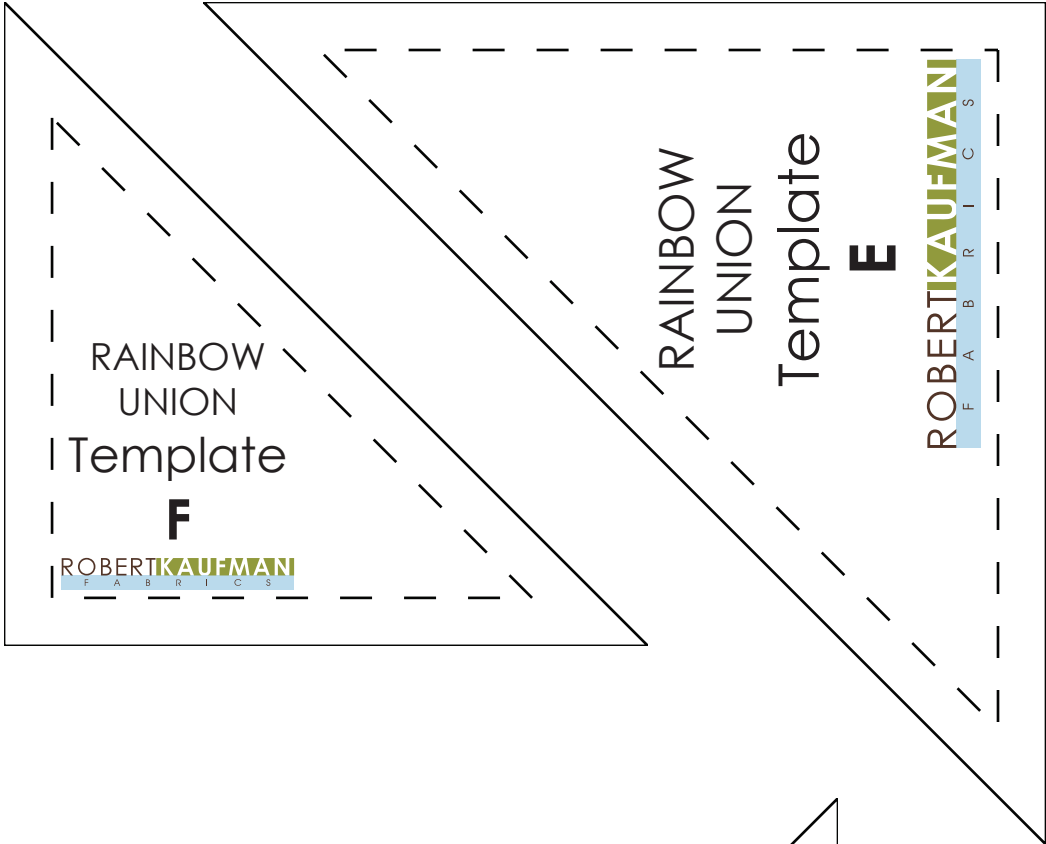

Create two rows of four blocks each for each color grouping. Refer to the Quilt Assembly Diagram for correct orientation of the blocks.

Sew blocks together, pressing seams to the left in odd numbered rows and to the right in even numbered rows.

Sew the rows together, pressing seams open.

Your quilt is now complete. Baste, bind, quilt and enjoy!
